Namaskar! My name is..... I/We am/are currently involved in the study on "Mother and Child Health, Health Services And Facilities" carried out by joint collaboration of Institute of Social and Environmental Research-Nepal (Fulbari, Chitwan) and Measure Evaluation, North Carolina University, USA. The study is going to be conducted in Syangja, Baglung and Parbat. In this study, we are going to collect information about the types, availability and services of the health services/institutions present in this ward. We would also like to know about the health related other government, non government and private institutions. Since you are a resident of this community and have the knowledge about this community, we would like to request you to become a part of this study.

The interview may take about 30 minutes. This study respects your time and presence. To join the study is voluntary, but in order to make this research successful your cooperation is highly important. We kindly request you to participate to make this study a success. During interview, you may refuse to answer any questions. Please tell us, we will skip to next question or even if you may refuse to continuing the interview, or may withdraw your consent to be in the study. Your information and opinion is very important to us. We assure you that no harm will occur by participating this study. Although you may not benefit personally from being in this study, the valuable information we obtain from you will directly and indirectly help the society, government, NGOs, researchers, scientists and policy makers to formulate new policies, develop new plans and programs based on the new knowledge we gain from you.

We assure you that every effort will be taken to protect your identity as a participant in this study. We are highly aware of the human rights and personal confidentiality of the respondents. Therefore, any information obtained from you will be kept confidentially and will be used only for the study purpose. Every respondent in this study will be provided with a ID number and the researcher will be provided your information only in the form of ID number. Once analyzed, all information obtained from you will be permanently erased.

As respondents, you have the right to ask, and have answered, any questions you may have about this research. If you have any questions or concerns about this research, please contact the Principal Investigators Dr. Dirgha Jibi Ghimire (Nepal) and Dr. Jessica Feringer (USA) in the address given below. If you have queries regarding respondent's rights, you may contact Nepal Health Research Council office, Kathmandu at 977-1-4254220 or email at [nhrc@nhrc.org.np](mailto:nhrc@nhrc.org.np). Further, you may also contact Institutional Review Board Office at University of North Carolina, USA at 011-919-966-3113 or email at [IRB\\_subjects@unc.edu](mailto:IRB_subjects@unc.edu).

At last but not the least, we are truly thankful for your valuable time and support. We expect your continued support in the future.
